Amalgamated Transit Union Local 113

The Amalgamated Transit Union (ATU) Local 113 is the labour union representing over 10,000 men and women who operate and maintain North America's third largest public transit system: the Toronto Transit Commission. We also represent the bus operators of Veolia Transportation in the York Region, just north of the City of Toronto.

Our members are highly skilled bus, streetcar, wheel-trans and subway operators, collectors, cleaning staff and maintenance workers with hundreds of specialties. Our members reflect the cultural diversity of riders, a large and growing proportion are immigrants from over 70 countries.

We are the most democratic union in North America. We elect all Officers, Executive Board Members, Shop Stewards and Safety Representatives every three years.
